Scotland's Bravest Manufacturing Company is a Social Enterprise and Supported Business specialising in road, rail, commercial signage and bespoke products.

What sets us apart is our employees: they are veterans and others with disabilities or from disadvantage. In setting up Scotland's Bravest we identified the need for opportunity for our target group and in doing so have helped transform peoples' lives. In buying from Scotland's Bravest, you are not just buying a sign, but investing in the working future of veterans, the disadvantaged and their families. You are creating huge social impact that in 2023 saw us awarded the King's Award for Enterprise in the Promoting Opportunity category: the strongest endorsement yet for our work. But don't just read this, come and meet the team, they love showing off their factory, the work they are doing and sharing their life experiences.

Our clients include major companies such as Bear, Amey, Balfour Beatty, Network Rail and most local authorities. We also supply NHS Scotland and independent customers. In the past year we have worked on major rebrands across Scotland including statement signage and wayfinding solutions.

This catalogue is just a snapshot of what we can do – contact us for any signage needs you have.

# ROAD SIGNS

SUPPORTING OUR FORCES  
— MADE BY —  
**SCOTLAND'S  
BRAVEST**  
MANUFACTURING CO.  
SINCE 1919

# PERMANENT ROAD SIGNS

All permanent road signs are manufactured in accordance with the Department of Transport's Traffic Signs Regulations and General Directions 2016 (TSRGD) and to our accredited manufacturing and quality management standard, BS EN 12899-1.

We have the facility to manufacture anything from small warning and regulatory signs up to the largest trunk road and motorway signage and are a major supplier to local authorities and to national network contractors such as Bear Scotland and Amey Highways.

In addition to manufacturing and supplying signage we can supply posts, lanterns, bollards and fixings and essentially be your one stop shop for your road signage requirements.

# TEMPORARY ROAD SIGNS (CLASS 1 REFLECTIVE)

**Material:** Black Rigid Polypropylene or Zintec Mild Steel in free standing frames
